The following was posted on the forum from a member of the site. Just for the record I thought I'd try the single mosfet in a DX33HML using the directions provided.

CBTricks MOSFET Experimenter's Information Notes

The Chinese room implements a version of the Turing test. Alan Turing introduced the test in 1950 to help answer the question "can machines think?" In the standard version, a human judge engages in a natural language conversation with a human and a machine designed to generate performance indistinguishable from that of a human being.
